MICHAEL TASOOJI MEMBER OF THE BOARD OF DIRECTORS

Michael Tasooji, has more than 30 years of hands on experience in the IT industry. He recently served as EVP and CIO of Quiksilver Inc., a \$2B global leader in action sports inspired apparel and footwear, where he established and spearheaded execution of a 3 year plan to establish the foundation for global business operations. He is currently an IT strategy consultant on assignment with a leading outdoor/sports apparel and footwear company in Portland, Oregon.

Prior to Quiksilver Inc., Michael spent 5 years at Gap Inc. as EVP and CIO. Gap Inc. revenue at the time was \$15 billion with products available for purchase in more than 90 countries worldwide through about 3,100 company-operated stores, more than 300 franchise stores, and e-commerce sites. As a member of the senior management team, Michael was responsible for overhauling the company's Information technology landscape in support of plans to significantly improve margin, reduce SG&A, and increase global sales through international expansion and E-Commerce.

Michael also spent 12 years at the Walt Disney Company. As the Global CIO, Michael lead execution of a strategy to rationalize IT services and corresponding investments among Disney business units, segments, and corporate shared services. This effort resulted in over \$200m in annualized efficiencies within IT globally. During his time as CIO of Disney Theme Parks & Resorts, Michael and his team developed and implemented innovative transformational technologies, such as FastPass, and developed the blueprint technology architecture for guest-centric Theme Parks & Resorts sales and operations.

Since 2008, Michael has served on the board of several startups, including Runa Inc. (e-Commerce technology) and Arges Inc. (medical devices) both of which were acquired after successfully bringing products into market. Currently, Michael is on the board of directors for INETCO Systems Limited, Acceptto Inc., and Sparo Corporation. Michael obtained his undergraduate degree and his MBA from the University of Southern California. He served on the Corporate Advisory Board of University of Southern California Marshall School of Business and CIO advisory board for Oracle Corporation.
