

Representative Vell Placement

RAYMOND UMERLEY CHIEF INFORMATION SECURITY OFFICER

Pitney Bowes announced the appointment of Raymond Umerley to the position of Chief Information Security Officer for the Volly™ secure digital delivery service.

Mr. Umerley has more than 18 years of experience in network operations, systems administration, and information security. Before joining Pitney Bowes Volly, he held the dual role of Chief Technology Officer/Chief Security Officer for Innovest Systems, a trust accounting and wealth management SaaS provider based in New York, NY. Innovest's clients include some of the world's largest financial services firms, as well as smaller independent trust and wealth management companies. Before joining Innovest, Mr. Umerley was the MIS Manager at DGA Security Systems, a physical security and alarm company specializing in security systems, access management, video surveillance, and vault services. Prior to joining DGA Security, he was the Network Operations Manager for Antenna Software, an ASP and leading provider of on-demand mobility solutions for field sales and service

Mr. Umerley has spent the last eight years primarily focused on information security and security architecture related to application service provider (ASP) and more recently cloud models (e.g., SaaS and IaaS). He holds numerous certifications including Certified Information Systems Security Professional (CISSP) as recognized by ISC (2) and Certified Information Security Manager from ISACA. Mr. Umerley has a B.A. in English from East Tennessee State University and will complete a MS in Computer Information Systems with a focus on information security from Boston University in the Spring of 2012.

About Volly

The Volly™ secure digital delivery service, unveiled in January, is a new cloud-based digital mail communications platform that will empower consumers to receive, view, organize, and manage bills, statements, direct marketing, catalogs, coupons and other content from multiple providers using a single application. This opt-in, consumer-focused consolidation service also includes online bill pay. For more information about the Volly™ secure digital delivery service, visit www.volly.com.
