DON GASPAR
CHIEF TECHNOLOGY OFFICER

Don Gaspar has been named CTO of ISGN, a leading mortgage technology and services company. Don was most recently CTO & EVP of Upland Logic, and CTO & EVP of Yapstone.

In his new role, Don will be accountable for leading the enterprise technology products vision, strategy and development. As a key member of the executive leadership team, he will provide thought leadership and strategy development in scaling ISGN's business.

Don brings with him over twenty years of diverse leadership, product and engineering experience within the software, mortgage and financial services verticals. Most recently Don was the CTO AND EVP of Upland Logic, known for its commercial real estate portfolio analytics platform, and CTO and EVP for Yapstone, a \$10B payment processor in the rent and vacation rental verticals that were on the Inc.5000 list 5 years in a row. Don is skilled in managing, mentoring and building teams of all sizes. Don is also the author of one technical book, "Web Commerce Programming in Visual C++".

Don holds a Bachelor of Science degree in Physics from Cal State University, an M.B.A. in Business from Pepperdine University and an M.S. in Distributed Systems from DePaul University.

About ISGN

ISGN is a leading full service provider of mortgage technology and services, impacting over 5.5 million of all U.S. mortgage loans. Their 1,500 domain and technology experts have spent more than 25 years creating award-winning technologies and solutions to help financial institutions improve precision, reduce risk, manage volatility and effectively transform their business. With flexible staffing and delivery models, ISGN is uniquely positioned as one of the few comprehensive mortgage service providers to both the origination and servicing sectors. They work with a majority of the top ten national lenders, as well as with regional lenders, non-banks, credit unions and community banks.
