

## Representative Vell Placement

### **EUGENE KHORUZHENKO CHIEF PRODUCT ARCHITECT, PERSISTENCE**

Absolute Software announced the placement of Eugene Khoruzhenko as Chief Product Architect, Persistence. In this role Mr. Khoruzhenko will be part of an organization that is helping to shape the next generation of Absolute Software's firmware and BIOS. He will work closely with Absolute's design teams as well as be responsible for the definition of firmware and BIOS feature's architecture and design. Additionally, he will be a key to the Platform and BIOS engineering providing leadership throughout the planning, design, development, and validation cycles of the program.

Mr. Khoruzhenko was previously at Phoenix Technologies, before joining the Absolute Software team. He is an innovative technology architect with extensive technical leadership experience. Eugene has been involved and contributed in all phases of software development lifecycles. His in-depth knowledge of analog and digital electronics with software engineering and reverse-engineering skills have allowed him progress to a leading role in the engineering team.

Mr. Khoruzhenko has a Master of Science degree from the Taranrog State Radiotechnical University. Where during this time he built nearly 8080 based computers, hardware and firmware as well as becoming the co-author of a patent.

#### **About Absolute**

Absolute Software Corporation (TSX: ABT) is the industry standard in persistent endpoint security and data risk management solutions. Persistence® technology from Absolute provides organizations with visibility and control over all of their devices, regardless of user or location. If an Absolute client is removed from an endpoint, it will automatically reinstall so IT can secure each device and the sensitive data it contains. No other technology can do this. Persistence technology is embedded in the firmware of computers, netbooks, tablets and smartphones by global leaders, including Acer, ASUS, Dell, Fujitsu, HP, Lenovo, Microsoft, Panasonic, Samsung, and Toshiba, and the Company has reselling partnerships with these OEMs and others, including Apple.
