

Representative Vell Placement

SCOTT BARNHILL
VP, IT & CISO

NetDocuments, a leader in cloud-based document and email management announced that Scott Barnhill, formerly head of IT, infrastructure and security for ADP AdvancedMD, has joined the team as the VP, IT and Information Security. In this role Mr. Barnhill will oversee day to day activities of the SaaS operations and infrastructure, as well as information security to achieve four 9's availability on netdocuments' highly secure and complex infrastructure.

Mr. Barnhill has over 20 years of progressive experience in IT Infrastructure concentrating in high performance Internet SaaS, cloud, and associated enterprise architectures. He has demonstrated success in leading highly functional technology architecture and operations teams.

Prior to joining netdocuments Mr. Barnhill was VP, IT & Security, ADP AdvancedMD, where he drove an ongoing focus on cost efficiency through strategic multi-year capital budgets ensuring infrastructure capacity needs were met. As well as, supporting client satisfaction by achieving 99.998% uptime for an infrastructure responsible for greater than \$20B in medical claims payments.

Mr. Barnhill graduated with a Bachelor's degree in computer science from Westminster College, with an emphasis on software engineering, operating environments, networking, computer graphics, and mathematics.
